

ABYSS « EPOCH » IN TITANIUM
« A tribute to the blockchain and Ethereum »

A major novelty for Hysek in this late 2021, the 41mm Abyss with three titanium hands. An evocative timepiece that recalls the genesis dedicated to those in search of the rare object to be collected. The first of its name to be released for bidding as an NFT.

Fifteen years have passed since the birth of Abyss, and yet this collection retains its dynamism and seductive appeal. Which is why a new version of the collection is making the news at Hysek today, as the year 2022 begins. **An epoch is an era of time within a blockchain** network such as Ethereum which is known for **its robustness, unstopability and durability**, three characteristics that have always been core to the Hysek philosophy.

Fifteen years after its initial release, Hysek is ready for the next fifteen and is pioneering in the NFT field by being the first haute-horlogerie brand to offer an NFT redeemable for a real physical watch. **Certified by code and math in the Ethereum blockchain forever. Ideal for collectors to certify ownership.**

With a 41 mm diameter, driven by a self-winding micro-rotor movement in titanium, it keeps the characteristics that have made the Abyss line so successful while displaying a more “gentleman’s driver” style, dedicated to those in search of the rare object to be collected. Its two-tone blue dial with Arabic numerals and indexes is enhanced by a date window under a magnifying glass at 3 o’clock.

A simple and efficient stylistic effect, reduced to the essentials, because this 2021 Abyss needs absolutely no other artifice to garner all the votes. A new must have.

TECHNICAL SPECIFICATIONS

MOVEMENT

- Caliber Hysek HW2000
- Mechanical winding
- Hour – Minute – Hands – Date with guichet
- 226 components
- 41 jewelries
- Autonomy 48H
- Frequency 28 800 VpH
- Variable inertia balance
- Double barrels

CASE

- Dimensions: Ø41mm x E11mm
- Round
- Titanium grade 5
- Small date at 3'O clock
- Swivelling horns
- Sapphire with antireflection treatment
- Waterproofness: 30 meters
- Titanium grade 5 strap
- Folding buckle
